At the beginning of the year the «Platform Chemistry» of the Swiss Academy of Sciences (SCNAT) and the Swiss Chemical Society (SCS) jointly announced for the first time the «SCNAT/SCS Chemistry Travel Awards», which supports the active participation of PhD students at international conferences. Almost 80 applications were received and the award committee (Prof. Dr. Karl Gademann, University of Basel; Prof. Dr. Katharina Fromm, University of Fribourg; Prof. Dr. Frédéric Merkt, ETH Zurich; Prof. Dr. Gérald Hopfgartner, University of Geneva) was very impressed by the high scientific level of the applications. The successful applicants were selected mainly based on scientific merit and in a second round based on additional criteria such as advancement of studies, past allocation of grants and distribution of research areas. The winners of the «2010 SCNAT/SCS Chemistry Travel Award» are:
