

The «Platform Chemistry» of the Swiss Academy of Sciences (SCNAT) invites young professors and group leaders in Chemistry within the first 10 years of their independent career to the

Young Faculty Meeting 2012

June 7, 2012 – University of Berne

Program:

- 8:45 Welcome and Round of Introductions
- 9:30 Scientific Presentations by Young Faculties
- 11:00 **Career planning and fundraising**
Prof. Dr. Karl Gademann, University of Basel
Prof. Dr. Roland Sigel, University of Zurich
- Panel discussion**
- 12:30 Buffet Lunch
- 14:00 Scientific Presentations by Young Faculties
- 15:30 **Publishing – from the editor's point of view**
Prof. Dr. Javier Pérez-Ramirez, ETH Zurich
- 17:00 Conclusions

Scientific Presentations by

- **Marc Creus**, University of Basel: *The birth of enzyme function*
- **Jan Cvengros**, ETH Zurich: *Synthesis and applications of N-stereogenic molecules*
- **Elena Dubikovskaya**, EPF Lausanne: *Non-invasive real time imaging of metabolites in live animals*
- **Gilles Gasser**, University of Zurich: *New concepts in medicinal inorganic chemistry*
- **Henning Jessen**, University of Zurich: *Synthesis of densely phosphorylated secondary messengers*
- **Florian Seebeck**, University of Basel: *Biosynthetic sulfur transfers*
- **Hans Jakob Wörner**, ETH Zurich: *Attosecond spectroscopy of electron dynamics in molecules*

Please confirm your participation to chemistry@scnat.ch before May 20, 2012.
