At the beginning of the year, the '2015 Chemistry Travel Award' was announced by the «Platform Chemistry» of the Swiss Academy of Sciences (SCNAT), the Swiss Chemical Society (SCS), and the Swiss Society for Food and Environmental Chemistry (SSFEC). This award program was initiated to support excellent PhD students from Swiss institutions to participate and actively present their work (poster or oral presentation) at international conferences. Many applications from students working in diverse fields of chemistry and at many institutions were received. The applications were reviewed by a selection committee composed of representatives of all three organisations: Prof. Dr. Gérard Hopfgartner (SCS, University of Geneva), Prof. Dr. Christian Bochet (SCS, University of Fribourg), Prof. Dr. Oliver Wenger (SCNAT, University of Basel), and Prof. Dr. Umberto Piantini (SSFEC, SCNAT, HES-SO VS). The committee was impressed by the high level of the applications. The selection was primarily based on the submitted conference abstracts and the scientific achievements.

On behalf of SCNAT, SCS and SSFEC we hereby congratulate the winners and wish them a successful conference participation.
