

Mechanistic Insights into Gold Organometallic Compounds and their Biomedical Applications

Sophie Jürgens and Angela Casini*

In this article (*CHIMIA* 2017, 71, 92–101), the conformation of the sugar in the auranofin structure (left-hand side of Fig. 1, page 92) was incorrect. This is corrected here.

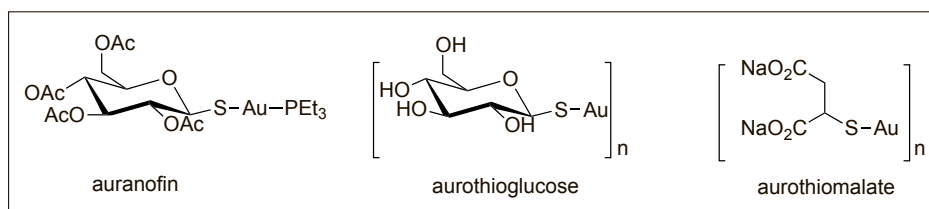

Fig. 1. Structures of Au(I) anti-rheumatic drugs.
