CHIMIA, a scientific journal for chemistry in the broadest sense covers the interests of a wide and diverse readership. Contributions from all fields of chemistry and related areas are considered for publication in the form of Review Articles and Notes. A characteristic feature of CHIMIA are the thematic issues, each devoted to an area of great current significance.

CHIMIA is a platinum Open Access journal operating under the licence CC\_BY 4.0 (<https://creativecommons.org/licenses/by/4.0/>). There are no Article Processing fees for authors of peer-reviewed scientific articles. The authors retain the copyright of their work and allow it to be shared and reused, provided that it is correctly cited.

The online articles are available at [ingentaconnect.com](http://ingentaconnect.com) as pdfs.

CHIMIA is published 10 times a year and is listed in the most important databases: Current Contents/Physical, Chemical and Earth Sciences, Chemical Abstracts, Science Citation Index, Research Alert, Scisearch, Index Chemicus, Chemistry Citation Index, Current Chemical Reactions, Reaction Citation Index, and Biological Abstracts.
