SCS CONFERENCES AND SYMPOSIA

24th ETH Conference on Combustion-generated Nanoparticles 2021

Jun 22–24, 2021, Online Conference.

The conference serves as an interdisciplinary platform for expert discussions on all aspects of nanoparticles, freshly emitted from various sources, aged in ambient air, technical mitigation aspects, impact of particles on health, environment and climate and particulate legislation. The conference brings

together representatives from research, industry and legislation.

Conference Topics

- Aircraft, marine and other non-road sources
- Ambient air particles, secondary pollutants
- Biomass-, biofuel- and synfuel combustion
- Emission control of combustion engines
- Emission upgrade and PTI for in-use vehicles
- Exhaust aftertreatment systems
- Future legislation and enforcement
- Health effects
- Impact on climate
- Nanoparticle formation and transformation
- Nanoparticle metrology and chemical characterization
- Nanoparticle chemistry and toxicology
- Occupational exposure and prevention

Contacts

Dr. Nobert Heeb, Empa Dübendorf, President of the OC
Dr. Andreas Mayer, TTM, Honorary President (Past President)

Peptide Therapeutics Forum 2021

Aug 19–20, 2021, University Hospital Basel and online (hybrid meeting)

The forum provides an innovative platform to exchange on the various aspects of drug development with a focus on peptides. Similar to previous events in the framework of Basel Life, presentations highlighted important new insights regarding the drug discovery of peptides

including examples for successful development candidates. The

forum disseminated information on latest news in the broad field of therapeutic peptides and enabled networking of interested parties from academia and industries.

The event will take place on-site for those who are able to join us in Basel or online for those who are not able to travel due to COVID-19 restrictions.

Program, Thursday, August 19, 2021

- 09.30 Welcome Address by the organizers
M. Fani, T. Vorherr & R. Stüssmuth
- 09.45 Special Guest Address: the graduate school “Bioactive Peptides” (a joint research initiative by the Berlin & Potsdam Universities)
- 10.00 Nina Hartrampf, University of Zurich, Switzerland
Flow-based methods for chemical peptide and protein synthesis
- 10.30 Steven Trim, Venomtech, UK
Discovery of stable, selective venom peptides for cancer research
- 11.00 Coffee Break
- 11.30 Helena Safavi, University of Copenhagen, Denmark
Venom-inspired design of novel drug leads for diabetes
- 12.00 Elisabeth von Guggenberg, University of Innsbruck, Austria
Peptide-based targeting strategies for diagnosis and therapy of medullary thyroid cancer
- 12.30 Lunch break, Exhibition and Networking
- 14.00 Plenary Lecture
Bart Cornelissen, University of Oxford, UK
Radiolabelled peptides and peptide conjugates for imaging and therapy of cancer
- 15.00 Coffee Break
- 15.30 Gerardo Guillen, Center for Genetic Engineering and Biotechnology, Cuba
The anti-inflammatory peptide CIGB-258 (Jusvinza) to treat COVID-19
- 16.00 John Vrettos, Enteris Biopharma, US
Strategies for oral delivery of peptides
- 16.30 Manuel Sanchez, Novartis, US
Patient-centric design for systemic peptide delivery: Trends in routes of administration and advancement in drug delivery technologies

Program Friday, August 20, 2021

- 10.00 Evi Kostenis, University of Bonn, Germany
FR900359: nature’s weapon and treasure trove for basic and translational research
- 10.30 Kristian Strømgaard, University of Copenhagen, Denmark
Targeting receptor complexes with therapeutic peptides
- 11.00 Coffee Break
- 11.30 Norbert Sewald, Bielefeld University, Germany
Cryptophycins and conjugates
- 12.00 Deborah O’Neil, NovaBiotics, UK
Antimicrobial peptides for bacterial and fungal disease
- 12.30 Lunch break, Exhibition and Networking

- 14.00 Daniel Obrecht, Polyphor, Switzerland
Balixafortide: a potent macrocyclic peptide CXCR4 inhibitor for oncology therapies
- 14.30 Jan Münch, University of Ulm, Germany
Peptide Inhibitors of SARS-CoV-2 entry
- 15.00 Coffee Break
- 15.30 Sridhar Nimmagadda, Johns Hopkins University School of Medicine, US
Peptide-based PET to quantify the pharmacologic activity of PD(L)-1 therapeutics in the tumor bed
- 16.00 Jesse Dong, BioNTech, US
Development of peptide-based personal cancer vaccine NEO-PV-01
- 16.30 Dehua Pei, Ohio State University, US
Intracellular biologics as next-generation therapeutics

27th Colloquium on High-Resolution Molecular Spectroscopy (HRMS 2021)

Aug 29–Sep 3, 2021, Online Conference. The 27th Colloquium on High-Resolution Molecular Spectroscopy (HRMS) was initially planned on-site. Due to the Covid-19 pandemic, the event will be held for the first time as an online conference to fulfill the regulations of the government and to facilitate safe exchange of scientific information.

Program Items

There will be 11 invited lectures and 3 mini-symposia. Parallel sessions will feature 54 contributed lectures given by PhD students and postdocs. 4 poster sessions are planned.

Conference Topics

- High resolution rotational, vibrational, and electronic spectroscopy of molecules (radicals, ions, complexes, clusters, ...)
- Molecular dynamics
- Theory assisting the prediction, simulation, and interpretation of spectra
- New techniques for high-resolution spectroscopy
- Applications to atmospheric sciences, astrophysics, planetology, combustion, gas-phase biomolecules, metrology and fundamental physics, cold molecules, etc.

Contact

Prof. Stephan Schlemmer, University of Cologne, Germany

Swiss Summer School 2021: «Catalysis and Sustainable Chemistry»

Sep 5–9, 2021, Eurotel Victoria & La Maison des Congrès, Les Diablerets
The focus of this edition of the Swiss Summer Schools is on catalysis and sustainable chemistry, with input lectures by experts from academia and industry, and student presentations. It offers a platform to students for the exchange with leaders in the field from academia

and industry. This Summer School is organized jointly with the NCCR Catalysis.

The team of Summer School Lecturers is built from experts in different areas of catalysis and sustainability, representing different academic institutions (Caltech, Princeton, Ben Gurion University, the University of Bern, and ETH Zurich). In addition, lectures presented by researchers from Syngenta, Siegfried, Merck/Sigma-Aldrich, Novartis, IBM Research and Sulzer will illustrate the importance of synthesis, catalysis and sustainability in industry.

Registration and Fees

	<i>SCS Member</i>	<i>Non-Member</i>
Students/Postdoc	CHF 720	CHF 870
Senior Participant	CHF 920	CHF 1'070
Single room accommodation:	+CHF 200	+CHF 200

The registration fee covers accommodation (full board), conference dinner and award ceremony, plus seminar charges (free for students and postdocs).

Teaching Body

- Prof. Robert H. Grubbs, Caltech
- Prof. Christophe Copéret, ETH Zurich
- Prof. Eva Hevia, University of Bern
- Prof. Todd Hyster, Cornell University
- Prof. Anat Milo, Ben Gurion University
- Prof. Javier Pérez-Ramírez, ETH Zurich

Industry Lecturers

- Dr. Christoph Boss, Idorsia Pharmaceuticals Ltd.
- Dr. Thomas Carl, Siegfried AG
- Dr. Susanne Drechsler, Sulzer
- Dr. Markus Fischer, Merck/Sigma-Aldrich Production GmbH
- Dr. Edouard Godineau, Syngenta Crop Protection AG
- Dr. Teodoro Laino, IBM Zurich Research Laboratory
- Dr. Audrey Langlois, Novartis
- Dr. Lucie Novelle, Novartis

Organization Committee

- Prof. Bill Morandi, ETH Zurich Prof. Jérôme Waser, EPFL Lausanne/NCCR Catalysis
- Dr. Hans Peter Lüthi, SCS Foundation
- Dr. Marie Francine Lagadec, NCCR Catalysis

DIAC Annual Member Meeting 2021

Sep 6, 2021, Dottikon Exclusive Synthesis AG, Dottikon

Member Assembly of the SCS Division of Industrial & Applied Chemistry and visit of Dottikon Exclusive Synthesis AG, incl. input lecture and round tour to the production site and the labs.

DIAC members will get an invitation to the event in June 2021. Participation is

restricted to DIAC member.

scg.ch/diac

Swiss Chemistry Science Night 2021

Sep 9, 2021, Casino Bern

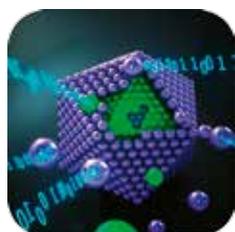

This event will honor the winners of the 2020 and 2021 Swiss Chemical Society Awards in front of distinguished leaders from industry and academia as well as representatives from politics and the media. The evening will be a celebration of discovery and innovation in the chemical sciences.

Program

- 17.00 Aperitif
 18.00 Welcome: Alain De Mesmaeker, SCS President
 Keynote addresses
 18.30 Celebration of the SCS Award Winners 2020:
 Prof. Scott E. Denmark, University of Illinois, USA
 Prof. Konrad Tiefenbacher, University Basel/ETHZ
 Ipatasertib Team F. Hoffmann La-Roche, Basel
 Dr. Frank Petersen, Novartis, Basel
 Dr. Hasane Ratni, F. Hoffmann La-Roche, Basel
 Dr. Denis Jacoby, Firmenich, Geneva
 Dr. Hans Ueli Ehrensperger, Kantonsschule Frauenfeld
 Mr. Nicola C. Lüdi, ZHAW Wädenswil
 19.30 Dinner
 21.00 Celebration of the SCS Award Winners 2021:
 Prof. Raffaella Buonsanti, EPFL Lausanne
 Team from Casale SA and Clariant
 Dr. Andrew Edmunds, Syngenta, Stein
 Dr. Cornelia Zumbunn, Idorsia, Allschwil
 Prof. Francesca Paradisi, University of Bern
 Dr. Kristýna Kantnerová, EMPA Dübendorf
 Prof. Andrew deMello, ETH Zurich
 Mr. Stefan Näf, ZHAW Wädenswil
 Ms. Kristina Djordjevic, FHNW Muttenz
 22.00 Dessert, coffee
 23.00 Official end

Participation in the event is by invitation only.

SCS Fall Meeting 2021 – Virtual Event

Sep 10, 2021, Online Conference

The SCS Fall Meeting is the largest annual scientific event in Switzerland. It offers a unique opportunity for graduate students, post-doctoral researchers and scientists of all levels, from both, academia and industry, to share the results of their research projects.

Formal host of the 2021 edition of the event is again the Department of Chemistry and Biochemistry of

the University of Bern. After a very successful organization of the first online event in 2020, the Department management kindly agreed to host the Fall Meeting again in 2021.

Program

- 09.15 Welcome and Conference Opening
Morning Plenary Session
 09.30 Sandmeyer Award Lecture 2021
 Pierdomenico Oct Biasi, Casale SA and Rene Eckert, Clariant Produkte (Deutschland) GmbH
 10.10 SCS Industrial Science Award Lecture 2021
 Dr. Cornelia Zumbunn, Idorsia Pharmaceuticals Ltd.
 10.50 Coffee Break
Morning Parallel Sessions
 11.00 Invited/Sponsored Lecture (30min)
 5 Short Talks à 15min
Lunch Break
 12.45 Virtual Poster Sessions
 Read abstracts, watch short videos and interact with the presenters via mail, social media or Skype.
 Virtual Commercial Exhibition
 13.45 General Assembly of the youngSCS 2021
Afternoon Parallel Sessions
 14.30 Invited/Sponsored Lecture (30min)
 5 Short Talks à 15min
 16.15 Short Break
Afternoon Plenary Sessions
 16.30 Werner Prize Lecture 2021
 Prof. Raffaella Buonsanti, EPFL Lausanne
 17.10 SCS Senior Industrial Science Award Lecture 2021
 Dr. Andrew Edmunds, Syngenta Crop Protection AG
SCS Announcements and Ceremony Session
 17.50 SCS Announcements
 Helvetica Prize of the Swiss Chemical Society 2021
 18.00 Best Oral Presentation Awards (sponsored by Metrohm)
 Best Poster Presentation Awards (sponsored by DSM)
 18.30 End of the Conference

Topics of the Parallel Sessions

- Analytical Sciences
- Catalysis Science & Engineering
- Computational Chemistry
- Chemistry and the Environment
- Inorganic & Coordination Chemistry
- Medicinal Chemistry & Chemical Biology
- Organic Chemistry
- Physical Chemistry
- Polymers, Colloids & Interfaces

Deadlines

- 30.05.2021 Abstract submissions and application for a short talk or a poster presentation
 22.06.2021 Notice of acceptance to contributors
 29.08.2021 Deadline for video upload for the virtual poster sessions

Basic Seminar: Patenting in Life Sciences & Chemistry 2021

Oct 11–12, 2021, Studienzentrum, Hotel Schloss Gerzensee

A hands-on workshop for PhD Students, Postdocs and junior industry researchers. At the end of this two-day workshop, you will master basic knowledge in intellectual property and will have answers to the following questions: How does patenting in life sciences affect –

my career? – academic research? – the society? This program is specially built for PhDs students and Postdocs.

Teaching Body

- Prof. Heinz Müller, Patentexperte, Eidgenössisches Institut für Geistiges Eigentum, Bern
- Dr. Stefan Emler, SmartGene, Zug
- Dr. Anna Deplazes, Institute for Biomedical Ethics and History of Medicine, University of Zurich
- Dr. Raluca Flükiger, Swiss University Technology Transfer, University of Geneva

ILMAC 2021

Oct 19–21, 2021, Messe Basel

Since 1959, ILMAC has been the sole Swiss industry fair for chemicals and life sciences that depicts all the industrial applications in process and laboratory technology. As a user-oriented trade fair, ILMAC is geared to experts in pharmaceuticals, chemicals, biotechnology, food, drinks, cosmetics and others.

Despite this wide range of sectors, ILMAC is still of particularly manageable proportions (it can be visited in a single day), is close to hand (staged in the midst of the pharmaceutical and chemical industries) and depicts the Swiss market in its entirety.

SCS, as the initial founder of the fair, is partnering with Messe Schweiz and coordinates the collaboration with society partners and the Universities of Applied Sciences. It is also the official organizer of the ILMAC Forum activities.

This year, ILMAC is the only live event for the laboratory and process technology sector to be held in the German-speaking part of Switzerland. For the safety of all visitors, exhibitors and service providers, we will again implemented the MCH protection and hygiene concept already successfully implemented at ILMAC LAUSANNE 2020.

Swiss Flow Chemistry Symposium 2021

Oct 19, 2021, ILMAC, Messe Basel

The Symposium will showcase the great potential of the Flow Chemistry technology and will focus on intensification and sustainability in chemical processes. The symposium is the part of the ILMAC Basel 2021 Forum program and is the inauguration event of the Swiss Flow Chemistry Network.

Program

- 10.00 Coffee and welcome
- 10.30 Keynote lecture
- 11.30 2 Invited lectures
- 12.30 Lunch
- 13.30 3 Invited lectures
- 15.00 Coffee break
- 15.30 Foundtable discussion
- 16.30 Aperitif and further informal discussion

Organizing Committee

Prof. Francesca Paradisi, University of Bern
Prof. Christof Sparr, University of Basel
Prof. Jacques Membrez, Givaudan SA

2nd Green & Sustainable Chemistry Days 2021

Oct 20, 2021, ILMAC, Messe Basel

We are convinced that sustainable chemistry will inspire a change of pace and the new mindset that society needs in order to become more sustainable, smart and inclusive. The Swiss Green & Sustainable Chemistry Days 2021 will focus on sustainable solutions to society's big challenges and the contributions

that chemical sciences can and must provide.

ILMAC 2021 ensures a perfect framework to meet, discuss and define follow-up action.

Program

- 09.00 Door opening of ILMAC
- Welcome Coffee

Morning Session

- 09.30 Introduction and Welcome
- 3× 30min Invited Lectures
- 11.00 short break
- 11.15 3× 30min Invited Lectures

12.45 Lunch break

- 14.00 **Roundtables** with experts (close to the forum at the SCS booth)

Afternoon Session

- 15.00 Opening of the afternoon session. Introduction to the Clariant CleanTech Award
- 15.10 Clariant Clean Tech Award Lectures (3x10min)
- 15.40 2× 30min Invited Lectures
- 16.40 Short break
- 17.00 Ceremony Clariant Clean Tech Award
- 17.15 Ceremony + Lecture of the "Green & Sustainable Chemistry Award 2021"
- 18.00 SusChem Soirée

Artificial Intelligence and Digitalization in Chemical Research

October 20, 2021, ILMAC, Messe Basel
For this Symposium, we are inviting companies to present their AI and Digitalization based R&D activities and achievements. The Call for Contributions is open also for service providers. Contributions from all areas of chemistry and chemical engineering are welcome.

The goal of the symposium is to give the ILMAC audience an overview on how AI and digitalization are changing our industry. At the same time, the Swiss Chemical Society wants to build a strong and diverse network of stakeholders in this field.

The call for abstract is open until May 31, 2021

ADDITIONAL CONFERENCES IN SWITZERLAND AND ONLINE EVENTS

ECG-COMON Meeting 2021

07–08 Jun 2021 – Online Conference

The ECG-COMON was founded at the end of 2004 by a group of scientists who were looking for a way to push forward the application of the electrochemical noise technique to monitor localised corrosion.

The 16th annual ECG-COMON Meeting 2021 needs to be held online, due to the COVID-19 crisis. It will be held via Zoom and will consist of some talks with discussions and a short Round-Robin session. Of course we are aware that an online meeting cannot replace our normal meeting with all the fruitful discussions and social networking activities, but we concluded that it is still important to meet at least once during these difficult times. So we hope you will join this online meeting and that we make the best out of it.

ecg-comon.org/meetings/ecgcomon-meeting-2021

ContaSed 2021-hybrid; 2nd International Conference on Contaminated Sediments

9–11/12 Jun 2021 – Universität Bern, UniS and online.

Sediments are sources and sinks of contaminants, and play an important role in mediating pollutants across compartments of ecosystems. Following ContaSed2015, ContaSed2020 will focus on organic and inorganic sediment contaminant classes including emerging contaminants, heavy metals and persistent organic pollutants.

www.oeschger.unibe.ch

3rd Symposium on Industrial Biocatalysis

10 Jun 2021 – ZHAW Campus Grüental (GA)

The symposium will cover cutting edge topics of biocatalysis, ranging from the evolution of synthetically valuable enzyme families, genetic code expansion and the design and optimization of artificial enzymes, to the development of computational approaches for enzyme engineering. In addition, the symposium will feature several successful biocatalysis examples from industry.

zhaw.ch/de/lsfm

6th European Symposium of Photopolymer Science

15–17 Jun 2021 – Online Conference

The European Symposium of Photopolymer Science (ESPS) aims to bring together the brightest minds from both academia and industry to collectively present and discuss the fundamental issues within this still burgeoning field. The meeting consists of seminars from not just European but international leaders of photopolymer science.

It is the intention of the organizers to provide ample time for discussion to emphasize the workshop character and stimulate the exchange of new ideas. The program will be mainly based on invited talks given by respectable scientists working in the field of photopolymer science. In addition, other contributed papers with 15 minutes allotted for presentations and posters with a 5 min flash talk may be submitted. For both categories there will be given 3 awards for the best presentations.

Future Labs LIVE 2021

21–22 Jun 2021 – Online Conference

Future Labs LIVE is essential and timely. Held over two days, with over eighty global experts Future Labs will provide comprehensive and interactive coverage of the key issues and technologies.

Our vision is to create the world's most important R&D lab event focusing on digitalisation, connectivity, and automation. Future Labs unites leading stakeholders from across the entire laboratory eco-system to create insight and to promote collaboration. We guarantee to give you an experience that is engaging, collaborative and global.

15th International Conference on Materials Chemistry

12–15 Jul 2021 – Online Conference

Organised by the Royal Society of Chemistry, the 2021 conference will host some of the leading materials researchers from around the world. It promises to be a great forum for materials chemists to network with and build strong collaborations within their community and related disciplines.

For MC15 we have a programme covering materials chemistry in all its breadth and diversity. There are four main themes, listed below, and underlying the whole conference is an emphasis on sustainability in chemistry throughout the materials lifecycle. Plenary lectures will highlight advances across the themes and keynote speakers will describe leading work within each theme, with sustainability and diversity of the materials chemistry community at the forefront.

rsc.org/events/detail/43710/

International Conference on Photochemistry 2021 (ICP 2021)

19–23 Jul 2021 – Online Conference

The conference program covers the most recent advances in photochemical and photophysical sciences in their broadest sense, and reflect the new frontiers in these fields. The virtual conference will be as similar as possible to an event happening onsite and will offer many new opportunities. The organizing and the scientific committees are working hard to prepare an attractive and exciting scientific program, which covers the most recent advances in photochemical and photophysical sciences in their broadest sense, and reflect the new frontiers in these fields. As a participant, you will be able to attend sessions, watch plenary and invited lectures, explore networking opportunities, exchange with other attendees and engage with exhibitors at their virtual booth.

icp2021.ch

23rd International Conference on Photochemical Conversion and Storage of Solar Energy

3–6 Aug 2021, EPFL Lausanne, SwissTechCenter

The first IPS meeting took place in Boston 1974, since then every two years, the IPS conference series has been held in more than 20 cities around the world, attracting 600-800 participants. The IPS conference offers a versatile platform to discuss the latest advances in renewable energy and storage research, and to enhance the regional and international collaborations. The IPS-23 will welcome scientists, engineers, and students from all over the world to enrich their knowledge, interact to spark new ideas, and foster new collaborations and partnerships. The programme will include a combination of plenary, invited talks, contributing talks,

and poster presentations in a meeting which will bring a broad spectrum of the community together to discuss the latest advances in energy conversion and storage research. The conference will have the scientific and social programme over five full days, with three parallel sessions after plenary talks.

ips23.epfl.ch/

IUPAC 2021 World Chemistry Congress "Solving Challenges with Chemistry"

13–20 Aug 2021 – Online Conference

IUPAC | CCCE 2021 will include daily plenaries, 40+ award lectures, 400+ invited lectures, and 2500+ contributed oral and poster presentations from chemical science professionals across the globe, all available on-demand.

The congress provides also the platform for the 51th General Assembly of IUPAC.

cheminst.ca/conference/ccce2021/

Biointerfaces International 2021 incl. Science and Translation Sessions

17–19 Aug 2021, Universität Zürich, City Campus

Programming aims to build bridges across relevant application areas, between science & engineering, innovation & technology, industry and academic partners and senior scientists & early-career researchers. Highly renowned and young scientists from academia, industry and clinics present their latest scientific findings and technological breakthroughs.

biointerfaces.ch/international/2021

EFMC-ISMIC 2021

29 Aug – 02 Sep 2021 – Online Conference

EFMC-ISMIC 2021 will cover advances in drug discovery in major therapeutic areas, including bacterial and viral infections, diseases of the brain, heart, and respiratory system, fibrotic diseases and cancer. It will also feature most recent advances in new technologies.

The Novartis Institute of Biomedical Research (NIBR) in Basel cordially invites students, post-docs and participants from academia participating in the EFMC-ISMIC 2021 symposium to an interactive discovery chemistry event on the Novartis campus.

In a series of dedicated sessions, the interface between chemical biology and drug discovery will be highlighted, including topics such the use of chemical probes for target discovery, molecular imaging, and photochemical approaches. In response to frequent requests by attendees of previous conferences, two sessions will be dedicated to advances in synthetic methodology for drug discovery. Finally, particular emphasis will again be put on first time disclosures and recent highlights in medicinal chemistry.

EFMC-YMCS 2021

09–10 Sep 2021 – Online Conference

The 8th edition of the EFMC Young Medicinal Chemists' Symposium will be held virtually on September 9–10, 2021 and will be organised by the European Federation for Medicinal Chemistry and Chemical Biology (EFMC) and the EFMC Young Scientists Network (YSN).

The programme of the 8th EFMC Young Medicinal Chemists' Symposium will include:

- keynote lectures given by inspiring leaders in the field, with ample time for interaction with the speakers.
- oral communications by invited prize winners from national young medicinal chemist meetings in Europe
- flash poster presentations selected from submitted abstracts
- a virtual poster session open to any young researcher submitting an abstract
- a virtual exhibition
- prizes

The scientific programme will also be completed by a series of soft-skills trainings and networking breaks, provided to you by the EFMC Young Scientists Network.

efmc-ymcs.org

International Conference on Molecular Ultrafast Science and Technology

12–16 Sep 2021 – Sunstar Hotel, Grindelwald

MUST2021 is sponsored by the Swiss National Competence Center in Research on Molecular Ultrafast Science and Technology (NCCR MUST), an interdisciplinary research program launched by the Swiss National Science Foundation in 2010. The NCCR MUST brings together Swiss research groups working in Ultrafast Science Themes across the fields of physics, chemistry, material science and biology.

The scientific sessions of MUST2021 consist of plenaries, invited and contributed talks and poster sessions.

nccr-must.ch

ScienceComm'21

15–16 Sep 2021 – Université de Fribourg

ScienceComm is the Swiss annual congress of science communication. Its goal is to provide a platform for networking, exchange of experiences between the three languages and cultural regions, and expert discussions. It also establishes the dialogue and the information exchange about new tools and trends in science communication.
