## CHEMPLUSCHEM: FREE TRIAL UNTIL END OF SEPTEMBER 2012

ChemPlusChem is the first genuinely multidisciplinary chemistry journal.

*“Too often is it the case that people working in truly interdisciplinary areas are unable to find a journal which reflects that particular nature of the work. ChemPlusChem fills this niche.”*

Thomas Maschmeyer

Professor of Chemistry and ARC Future Fellow  
The University of Sydney, Australia

Take advantage and enjoy reading and publishing in ChemPlusChem, the dedicated place for interdisciplinary chemistry papers.

Ensure that you get FREE access to ALL articles until the end of September 2012.

## HALF PRICE FOR A RSC E-MEMBERSHIP

Get a 12-month e-membership of the Royal Society of Chemistry for only £10. Please contact [info@scg.ch](mailto:info@scg.ch) to ask for the promotion code (for SCS members only).

RSC e-membership enables you to ...

- Access expert knowledge and keep current with 24 digital editions of the award-winning Chemistry World magazine
- Interact with specialists in your field and discuss the science that matters to you by joining an RSC Interest Group
- Engage with tens of thousands of users worldwide on MyRSC, the online professional community for chemical scientists

## CALL FOR INTERNSHIP TOPICS FOR EPFL STUDENTS IN CHEMICAL ENGINEERING AND BIOTECHNOLOGY

EPFL Master students in Chemical Engineering and Biotechnology must undertake a 4–6 month internship in companies or administrations at the end of their studies (5th year).

*Duration:* 4 to 6 months

*Internship starting date:* between mid-July 2012 and mid-October 2012

*Internship ending date:* mid-February 2013 at the latest. The exact internship dates and duration are defined by the company.

To facilitate the communication with the companies, the EPFL has set up a web portal where the company can create an account and post the job offers (2–3 lines are enough). The portal is common to all EPFL masters. The company can select the Master(s) of interest for each internship subject. The company receives the CV and cover letters directly on its account and interviews the candidates of interest, as it does usually in its recruitment process.

A simple email with a short topic can also simply sent to [stages.sb@epfl.ch](mailto:stages.sb@epfl.ch). It will be published to our students.

Topics can be sent any time but students apply generally early spring.

Further details on: <http://sb-stages.epfl.ch/chimie>

## EUChEMS CONGRESS 2012, PRAGUE

August 26–30, 2012

The biannual congress with about 1'500 participants offers possibilities to learn from experts in all fields of chemistry, share experiences with companies, scientists, academics and debate about challenging topics.

For program details, details of the call as well as registration conditions and procedure please visit the official web page on <http://www.euchems-prague2012.cz/>.
